Facts

Dimlight were formed in 2005 from B-Side's founding members. With appetite and energy, Dimlight search musical paths without dogmatically insisting that they serve a specific genre. Dimlight aren't trying to reinvent the wheel; they express themselves with music, something that often gets lost somewhere between image making and carefully practiced marketing campaigns. That is why before becoming Dimlight they had to prioritize their "wants" and "needs". They want to experiment musically - as most musicians actually do. They want to explore, to journey through the thin boundaries of metal genres. They need to play music - they are friends after all and playing music with friends is one of the best things life has to offer. They want people to listen to their music - their art - because they want you with them on that journey. Their goal is to combine the extreme opposites in music and lyrics. Classical with metal, clean female vocals with deep male brutal vocals, light with darkness. Dimlight and Emotion Art Music are overconfident that *Obtenebration* is the art of making darkness. The album is in stores in Greece and Cyprus since April 2009.
